

# ***Barbarians for Christ***

***FAO The Business Owner & Managing Director***

We realise that business is tough at the moment in the economy we find ourselves in. We are facing many challenges like high interest rates, resulting in a customer reluctance to commit to major expenditure, leaving business owners with various short term uncertainties.

We believe it is of utmost important that staff are able to maximise their efficiencies and use every opportunity to make the best of the current economic climate. However, most employees are also facing personal hardship at this time which unfortunately has an effect on their performance in the workplace.

We believe that by sharing the good news of the Gospel of Jesus Christ and developing a solid relationship with Jesus Christ helps everyone overcome these hardships. Everything becomes more bearable as one puts their trust and faith in Jesus Christ.

Barbarians for Christ is a ministry using feats of strength to gain the staff's attention. Followed up by real life testimonies shared by the team members. The testimonies given are of our personal struggles that we have faced and how Jesus stepped in and turned our lives around.

Our hearts are to serve and to bring the good news of the Gospel of hope to those who are in attendance.

The team generally requires between 45 – 60 minutes to complete feats, share their testimonies and be available to speak to, or pray with, anyone who has been challenged by what they have heard.

We trust that Barbarians for Christ could be of benefit to your employees and ultimately your business. Please feel free to get in touch, either via our website or FaceBook page. There is **NO CHARGE**, Barbarians for Christ is a **free and voluntary ministry**.
